Thanks. This what I thought Alex network of lawyers are supposed to do. He was notified of all problems. If I had filed in the small claims court will I still have to get a medical expert to testify. I will ask my doctor whether she can testify Do you have a lawyer in mind or network of lawyers who will handle this case.

Thanks

No, I don't work for Alex, that's a separate law firm.  
You will have to have an expert testify on medical and health claims, there are rules that the court has to follow. By yourself you won't be able to get any of the medical evidence admitted.  
There's a lot to your claim and you need an attorney that has experience with medical issues arising from these issues. My firm does not handle those types of claims.

Thanks for my email.. I did not get the foreclosure hearing on the letters you sent me.

As I told you many times I will try to present to the court on the health problems. This not only include my mental problems including reasonable accommodation as stated by the doctor but my health by inhaling toxic fumes that was spray painted from Vents by this HOA contractors. This has affected my health including causing my eye sight to deteriorate on

the long run. The spray paint was notified by a letter dated on 4/25/2022 to the association . The HOA attorney was also informed on this incident with pictures of painted vents. I forwarded a copy to you In response the HOA attorney wrote on 7-10-2022 that Board has decided to replace all dryer vents. This was never done and toxic chemicals have got into my body.

There is some confusion as to an attorney as I thought you were working for Alex. You should have to sue on just the lien I will present the health problems.

Thanks  
Sincerely

Radesha, for my firm, we prepared and sent a demand letter on your behalf as we agreed to do. This service was completed and we sent you the disengagement letter notifying you that our representation had ended.

We have sent you everything that was sent to our office previously. We did not open any of the mail as we no longer represented you.

As I stated before, the issues you are raising with the medical and mental claims are outside our areas of practice and we are not able to represent you in those claims.

The last correspondence that we received from the HOA advised us that you had already had several hearings before my firm was involved and that the facts you provided us were not valid.

I can't speak for the other law firm or Mr. Hernandez in this matter.
